Multiplicity of benefits at Uchenna Academy

A Message from the Principal

At Uchenna Academy, our goal for all our students is to increase their academic skill and confidence, set higher academic goals and promote a heightened interest in the subjects taught. At Uchenna, we present new concepts and real- world applications that pique students' curiosity.

We recognize the research-based evidence demonstrating a positive relationship between physical activity and learning. This is why we have developed a sport-centric learning model, which promotes mathematic literacy through sporting activities. In keeping with our research based framework, we are pleased to offer a one-of-its-kind research course in collaboration with Toronto Rehabilitation Institute starting Sep. 2017.

Uchenna Academy instructors continually incorporate **supplemental academic coursework** in daily lesson plans, potentiating students to accelerate their knowledge. A Uchenna Academy experience also provides university-related benefits, such as personalized career mentorship, in efforts to expose students to various career paths available to them. Our objective is to ensure all our students strategically maneuver their post-secondary academic paths, thereby ensuring their future economic success.

Sincerely,
Caren Dave McNee, Principal

Individualized private learning

Uchenna Academy arose from our vision of delivering academically driven, comprehensive high school curriculum at an economic cost, thereby inhibiting economic barriers to academic success.

Our tuition costs are mindfully kept below the province's average course fee in order to bridge a gap between students and their access to superior high-school education.

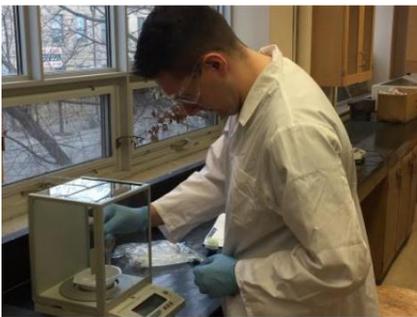

At Uchenna Academy, all teachers emphasize active learning and encourage students to use knowledge in independent ways.

Our classrooms are characterized by:

- high expectation for student performance,
- low student/teacher ratio (each class is capped at 8 students max)
- flexible instruction to meet the various interests of our students

In addition, all of our hand selected, well trained and highly motivated staff members love knowledge and routinely act as a strong positive influence for our students.

We hope to have an opportunity to meet with you and/or your child and kick start a school year filled with academic rigor, high expectations and informative classroom instruction.

Achieving Global Impact – One Student at a Time

At Uchenna Academy, we recognize the integral value of quality high school education as a founding requirement for each student's future academic success. We also recognize the increasing need for students to become active participants in the global, knowledge-based economy, which requires state of the art instructional delivery, use of technology in the classroom, career based workshops and project based learning, all of which are implemented into each course offered at our school.

The flexibility offered by Uchenna Academy serves students with various academic needs. Students seeking enhanced academic rigor, homeschooled students, elite athletes unable to commit to a regimented classroom schedule, students wishing to fast track their academic career, students with learning impairments, unable to succeed in a traditional classroom environment, or students simply looking to study a course not offered at their home school will all benefit from the courses offered at Uchenna Academy.

At Uchenna Academy we offer:

- Senior science courses laboratories are delivered at Ryerson University offering a university level post-graduate experience
- One of its kind research-based science course! We have collaborated with Toronto Rehabilitation Institute (TRI), a research & teaching hospital in Toronto's downtown core to develop a course where students will work with the research team to design products, write science publications & present their products as part of the TRI's Research Day.
- Academic coaching and university/college application preparation with our staff
- Sport-centric learning! On-court activities are embedded into the math curriculum to promote student engagement, understanding & retention of material. Our sport-centric learning model is founded on evidence-based research that shows a correlation between academic improvement and sports/physical activity.
- Comfortable, positive learning environment with continual access to digital technology
- Flexible schedule (morning, evening and Saturday classes are available)
- Complimentary tutoring, in person or online
- Financial arrangements and scholarships are available to those that qualify

Course Catalogue

Our comprehensive curriculum includes a spectrum of senior courses in various fields of study. Our most popular senior level courses are listed below.

Course Code	Course Name (U : University ; M : Mixed ; O : Open)	Grade
BAF3M	Financial Accounting Fundamentals (M)	11
BAT4M	Financial Accounting Principles (M)	12
CIA4U	Analysing Current Economic Issues (U)	12
CLN4U	Canadian & International Law (U)	12
CPW4U	Canadian & International Politics (U)	12
EMS3O	Media Studies (O)	11
ENG3U	English (U)	11
ENG4U	English (U)	12
EWC4U	Writer's Craft (U)	12
HZT4U	Philosophy: The Big Questions & Theories (U)	12
ICS3U	Introduction to Computer Science	11
ICS4U	Computer Science (U)	12
MCF3M	Functions & Application (M)	11
MCR3U	Functions (U)	11
MCV2U	Calculus & Vectors (U)	12
MDM4U	Mathematics of Data Management (U)	12
MHF4U	Advanced Functions (U)	12
PSK4U	Introductory Kinesiology (U)	12
SBI3U	Biology (U)	11
SBI4U	Biology (U)	12
SCH3U	Chemistry (U)	11
SCH4U	Chemistry (U)	12
SPH3U	Physics (U)	11
SPH4U	Physics (U)	12
TGJ4O	Communications Technology : Digital Imagery & Web Design (O)	12

Online courses are also available! Please visit www.uchenna.ca/programs to review our online course availability.

Applying to Uchenna Academy is easy!

- 1 Apply online: <http://uchennaedu.org/contact/>
- 2 Submit your most recent report cards (the final report cards from 2 most recent academic years).
- 3 Submit any other relevant educational information (ex. educational assessment tests)

QUESTIONS?
